PROGRAM - VIRTUAL MEETING

The Swiss Narcolepsy Network (SNaNe)
The Swiss Narcolepsy Society (SNaG)
and Klinik Barmelweid

Are happy to invite you to the

6TH SWISS NARCOLEPSY DAY

04/02/2021 | LIVE FROM BARMELWEID[®]

Dear Colleagues

Asleep during the day! A growing number of normal population suffer severely from daytime sleepiness. In some cases this is caused by narcolepsy - a rare and compromising, still underdiagnosed and not well understood disorder.

The **6TH Swiss Narcolepsy Day** offers opportunities to address clinical aspects of narcolepsy and to report on scientific progress in disease management. Due to current extraordinary situation, we have been working hard to offer the option of digital attendance.

Together with the newly founded Swiss Narcolepsy Network (www.snane.ch) our goal is to find innovative new strategies that support the improvement of the patient's medical care.

Warm Regards,

PROF. DR. RAMIN KHATAMI
Center of Sleep Medicine & Epileptology
and Barmelweid Akademie
Klinik Barmelweid
