13th European NARCOLEPSY DAYS

Dear colleagues, patients, guests and friends,

The 13th European Narcolepsy Days which immediately follows the 19th European Narcolepsy Master Class, is a joint meeting with patients and includes clinical and scientific sessions on narcolepsy and its treatment, lectures on the most recent publications in the field of narcolepsy, pediatric updates, short presentations by young investigators on current research projects, a poster session and a keynote lecture on clinical, pathophysiological and therapeutic aspects of narcolepsy and its socio-economic impact.

Representatives of national patient organizations will host a joint workshop with clinicians and a second session in which questions prepared by patients will be discussed together with physicians and scientists.

Warm Regards,

Prof. Claudio Bassetti
President of the European Narcolepsy Network
